

Associate Professor Dr Carol Wu

Dr. Wu is a board certified radiologist specializing in Thoracic Imaging with particular expertise in the interpretation of Chest CT and PET-CT at the MD Anderson Cancer Center. Her research interests include improving imaging utilization in the evaluation of patients with suspected pulmonary embolism, lung cancer, and esophageal cancer. She is an active member of various radiology organizations and serves as the Chair of the Big Data Subcommittee of the Society of Thoracic Radiology and a member of the Global Outreach Committee of the American Roentgen Ray Society.
